

Logic Trendline Indicator - Trio Installation Guide

Our indicators work only on TradingView platform. In order to use our Logic Trendline, Logic Day Trading and Supply Demand Pro Indicators, you will need an active TradingView account (free, professional or premium). After providing us your TradingView username (not your email address), your access to our indicators will be granted and the indicators will be available in your account. Please allow 24 hours for processing your access.

To add our indicators to a chart (after your access is granted) , open a chart in TradingView, then click **Indicators**

Our indicators will show up under Invite-Only Script
