Turtle Advanced User Guide

In this manual described installation process of Turtle for MetaTrader 4 trading platform build 574 or later.

Our indicator works on MetaTrader4. You need to install MetaTrader4 first if you haven't.

Then, follow the steps below to install our indicator:

Step 1: Install The Indicator:

First, you should have already downloaded the ZIP file containing all the installation files from your members area and unzip it into your desktop. Inside that ZIP file, there's this file: **Turtle.ex4**
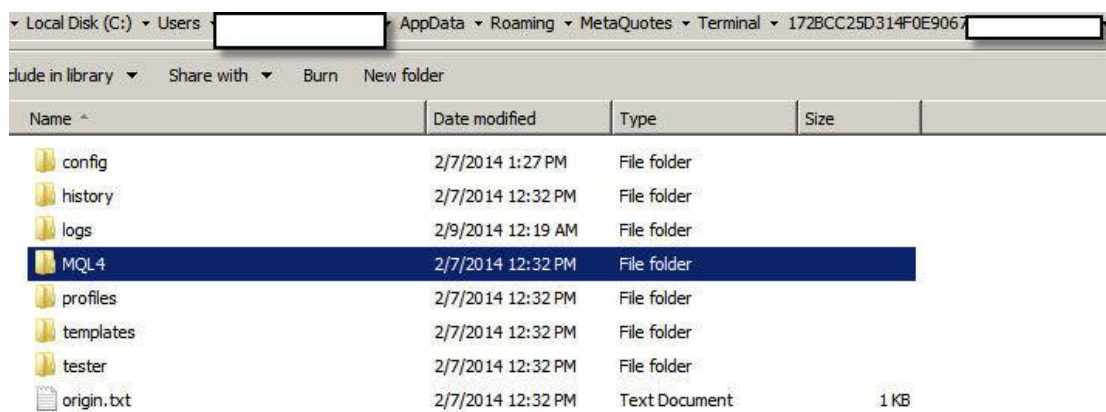

Next:

Open your MT 4 trading platform
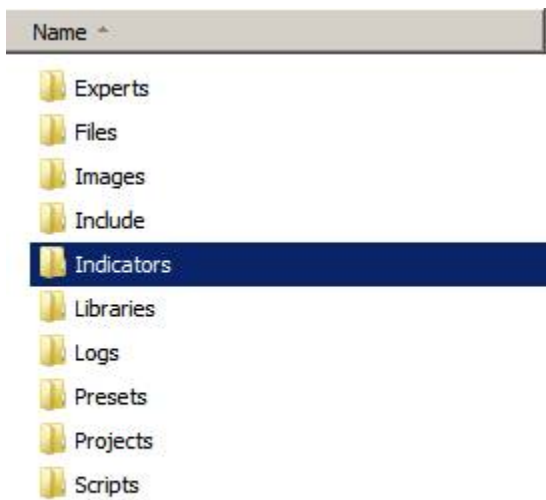

Click File --> Open Data Folder

Once you have that data folder open, locate the MQL4 folder inside it.
Then open that MQL4 folder:

Inside that MQL4 folder, you will see the Indicators folder , this is

where you need to copy the **Turtle.ex4**
from your zip file to.

NEXT STEP:

To insert the indicator to your chart, click Insert --> Indicators -->
Custom, then choose **Turtle**
